

8th January 2026

Dear Parents and Carers,

Due to the weather forecast worsening, and in line with recent recommendations from the Local Authority, we have made the decision to close the school tomorrow.

This decision has not been taken lightly, but the safety of our children, families and staff is our priority, particularly given the current weather warnings and the potential impact on travel conditions.

Although school will be closed, there are still plenty of opportunities for children to stay engaged and continue their learning at home.

If you are able to, children can access a range of high-quality online activities, including:

- EdShed – for spelling, phonics and vocabulary practice <https://www.edshed.com/en-us/login>
- BBC Bitesize (Primary) – curriculum-linked learning across a range of subjects <https://www.bbc.co.uk/bitesize/primary>
- National Geographic Kids – engaging reading, videos and activities linked to science and the wider world <https://www.natgeokids.com/uk/teacher-category/primary-resources/>

We appreciate that school closures can be disruptive and thank you for your continued support. We will continue to monitor the situation closely and will keep you updated regarding reopening as soon as we are able.

Kind regards

Philip Salisbury
Headteacher
